

Skilled occupations list

This form contains the Skilled Occupations List (SOL) and includes contact details of the relevant assessing bodies for the occupations. The information was correct at the time of printing, however you should check the latest SOL on the DIMIA website www.immi.gov.au, a DIMIA office or at an Australian mission before you apply.

Note: The assessing authorities are responsible for undertaking skills assessment for migration purposes, and are **not** employment agencies. The assessing authorities will not reply to requests for job placement.

If you intend to apply under one of the General Skilled Migration categories you must have a nominated occupation which is on the SOL at the time you apply. In order to make a valid application you must have obtained a skill assessment from the relevant assessing authority for your nominated occupation.

The SOL lists occupations alphabetically in accordance with their title in the Australian Standard Classification of Occupations (ASCO) dictionary for each of the major group headings of:

- managers and administrators;
- professionals;
- associate professionals;
- tradespersons and related workers.

For each occupation, the list shows:

- the ASCO number for the occupation;
- the relevant assessing authority for the occupation; and
- the number of points for skill allocated for the occupation in the points test.

The contact details for the assessing authorities are listed on pages 13-15.

It is your responsibility to contact the relevant assessing authority for your nominated occupation and obtain a skills assessment, which must be included with your migration application.

The ASCO dictionary is available on the internet by accessing the Australian Bureau of Statistics homepage www.abs.gov.au, going to the site map, ABS papers and classifications, classifications and ASCO second edition.

Note: You must contact the assessing body for an application form and associated information. There will be a charge for the assessment.

If your occupation is not on the SOL you may consider contacting the assessing body of a closely related occupation on the SOL. Some specialisations of occupations are covered by more generic titles. If your skills are recognised by an assessing body for the closely related occupation on the SOL, you may apply using that occupation as your nominated occupation.

Although you are only allowed to have one (1) nominated occupation on your migration application form prior to lodging your migration application, you may apply to any number of the skills assessing bodies until you obtain a positive skills assessment.

DIMIA enquiry line Telephone **131 881** for the cost of a local call (24 hours a day, 7 days a week). This number is available only in Australia. If you are outside Australia, please contact your nearest Australian mission.

SLAA [State Legal Admission Authority](#)

If your nominated occupation is legal practitioner you must make application to the SLAA for admission as a barrister and/or solicitor in the relevant Australian State or Territory. Once you have been admitted as a barrister and/or solicitor you do **not** need to make application to a SLAA for a skills assessment, as evidence of your admission in the relevant State or Territory (eg certified admission certificate) itself constitutes a skills assessment.

Skills assessment process

Following is a brief description on the assessment process for various occupations.

While you are encouraged to contact the assessment bodies direct for further information, general information on various occupations can be obtained through the **Occupational Information leaflets** in the **publications** page of the NOOSR website at: www.dest.gov.au/noosr/leaflets/index.htm

AACA

Architects Accreditation Council of Australia Inc

The assessment of overseas academic qualifications in architecture is carried out by the Architects Accreditation Council of Australia Inc. Qualifications obtained outside Australia are assessed in terms of equivalence with an academic qualification in architecture from a recognised school of architecture in Australia. Generally a qualification is of 5 to 6 years duration from a higher education institution.

Applicants should be aware that this assessment is provisional only, and upon arrival in Australia they will be required to submit for the Review of Academic Equivalence (RAE), undertake work experience in an architect's office, and submit for the Architectural Practice Examination (APE) before being eligible for registration.

AASW

Australian Association of Social Workers

The general field of social welfare in Australia is diverse and complex, with a range of occupational groups involved in service provision. The social work profession is one of these groups. Whilst social work is not a legally registered occupation in Australia, many employers do require eligibility for membership of the Australian Association of Social Workers (AASW).

The AASW is the professional organisation for social workers in Australia. It has a number of functions including: approval of Australian Bachelor of Social Work courses so that their graduates can meet AASW membership eligibility requirements; self-regulation of the profession; and assessment of overseas social work qualifications.

The assessment of overseas social work qualifications is undertaken on the basis of AASW's membership eligibility requirements. A comparative method of assessment is used: the formal social work educational course completed overseas is compared with AASW requirements for social work courses in Australia, which are Bachelor degrees in social work awarded after 4 years of study at a university. The overseas qualifications are compared with AASW requirements for Australian courses in terms of educational level, length, structure and content, including required fieldwork placements. AASW encourages applicants to contact AASW directly if they require further information and application forms.

ACOPRA

Australian Council of Physiotherapy Regulating Authorities Inc.

The assessment of overseas physiotherapy qualifications is carried out by the Australian Council of Physiotherapy Regulating Authorities Inc through its committee, the Australian Examining Committee for Overseas Physiotherapists (AECOP). With few exceptions, all overseas-qualified physiotherapists are required to undertake the AECOP examinations process in order to meet Australian registration requirements.

Eligibility:

Overseas-qualified physiotherapists seeking to undertake the AECOP examinations must—

- (1) have completed a tertiary physiotherapy program of no less than 3 academic years in duration; with a curriculum that—
 - is sufficiently similar in theory and practice aspects (including clinical hours) to the curricula undertaken in Australia;
 - included a substantial element of supervised physiotherapy clinical practice; and
 - included theoretical and clinical components of cardio-respiratory, musculo-skeletal and neurological physiotherapy and of electrotherapy, similar in content and duration to physiotherapy education programs offered in Australia;
- (2) be eligible to be registered/licensed as a physiotherapist in the country in which the program was undertaken; and
- (3) have practised as a physiotherapist for 2 out of the past 3 years (or the part-time equivalent) if they graduated 3 or more years before submitting their eligibility assessment application; or, if they graduated between one and 3 years before the date of application, have practised for at least two-thirds of that time.

Examinations Process:

The AECOP examinations process consists of:

- Occupational English Test (except where English is the candidate's first language or an exemption is granted on evidence supplied);
- AECOP Screening Examination (a multiple-choice-question examination covering all the principal fields of physiotherapy as practised in Australia);
- AECOP Technical Ability Examination (a practical examination of the candidate's technical abilities, with a focus on safety, conducted in Australia only);
- AECOP Clinical Examination (conducted in a clinical setting, in Australia only).

Upon successful completion of the AECOP examinations process, a candidate will be eligible to apply to register to practise as a physiotherapist in Australia. Only then will a candidate's skills be considered suitable for migration purposes.

ACS

Australian Computer Society Inc

The Australian Computer Society (ACS) is the professional society for information technology practitioners in Australia. It is also the professional body authorised by the Australian Government to conduct skills assessments for migration purposes.

You may apply for a skills assessment if:

- you are a current Member (MACS) of the ACS; or
- you possess any of the following Australian qualifications or overseas qualifications and relevant experience assessed as comparable:
 - *Bachelor (undergraduate) degree or higher qualification with a major in IT plus four-years of relevant professional IT work experience;
 - Bachelor (undergraduate) degree or higher qualification with a minor in IT plus six-years of relevant professional IT work experience;
 - (AQF) Advanced Diploma (three years full-time) or (AQF) Diploma (two years full-time) in IT plus six-years of relevant professional IT work experience.

*Recent graduates of an Australian university who fall within the first category do not require experience.

If you do **not** possess a recognised qualification in IT (or IT sub-discipline) but you have a qualification in another discipline together with significant experience in IT and extensive professional development education, you may apply for Recognition of Prior Learning (RPL). Applicants in this category should have a minimum of six years relevant professional IT work experience.

AIM

Australian Institute of Management

To satisfy the level of qualifications, training and work experience for a 'professional manager' assessed by AIM, applicants must hold a senior management position. The criteria used is as follows:

'A record of proven management achievement over a period of 5 years or more in a senior management position such as a chief executive, general manager or senior functional manager who delegates authority to several other managers who hold positions requiring the delegation of work to **several** other positions of a supervisory, or technical, or skilled nature'.

The years of experience may be reduced if the applicant has qualifications in management studies or business administration assessed as comparable to an Australian Bachelor degree, or in a discipline relevant to the field in which the manager is working. **You must have relevant work experience – recent graduates are not able to meet the requirements.**

An important factor in making an assessment is whether a person delegates authority to other managers who are themselves responsible for planning, organisation, decision making, staffing and control, and who in turn delegate to others.

The assessment is based upon a review of an entire career history and satisfactory evidence is sought of managerial progression through increased authority and responsibility of each position thereby demonstrating a period of sustained success.

Applicants who wish to have their skills assessed should contact AIM for further information.

Note: Any grading of experience and education undertaken by any AIM State Division for membership does not automatically translate into approval under the skills assessment process for migration.

AIR

Australian Institute of Radiography

Medical Radiation Science in Australia

Medical Radiation Science in Australia encompasses:

- Diagnostic Radiographers (Medical Imaging Technologists);
- Radiation Therapists; and
- Sonographers.

Radiographers/Radiation Therapists/ Sonographers and Industrial Radiographers holding qualifications obtained outside Australia must apply directly to the Australian Institute of Radiography for assessment of their qualifications.

The AIR will, through its Overseas Qualifications Assessment Panel, directly assess Radiographers/Radiation Therapists and Sonographers and will refer assessments on Industrial Radiographers to AINDT. However all applications must be submitted to the AIR.

A Comprehensive appeal process is available to all applicants and the appeal mechanism is conducted by persons not associated with the original assessment.

AIWCW

Australian Institute of Welfare and Community Workers

The general field of social welfare in Australia is diverse and complex, with a range of occupational groups involved in service provision. Persons with welfare work qualifications are employed across many of these occupations, and their job titles may vary greatly. However, eligibility for membership of the Australian Institute of Welfare and Community Workers (AIWCW) is used by a variety of employers as an important criteria for employment.

The AIWCW is the professional organisation responsible for assessment of overseas qualifications and work experience suitable for recognition as a generic welfare worker in Australia, using the criteria for eligibility for membership. Eligibility for membership of the AIWCW generally requires a person to have completed a vocational qualification in welfare work, community services or human services, with a 3 year university degree, or a 2 year diploma at a college of technical and further education (TAFE); including studies of society, individual human structure and function, welfare work with individuals, groups and communities, welfare services and systems, and practical training of at least 400 hours.

Full membership of the AIWCW is also available to those who:

- satisfy the AIWCW requirements for Core Competencies; and
- have a relevant qualification at least equivalent to the Australian Qualification Framework Diploma in academic standard; and
- which is at least equivalent to 2 years of full-time or 1000 hours of study; and
- have at least 3 years of professional work experience (30 hours per week or more) within the last 10 years.

A 'relevant qualification' may include, for example, a general 3 year Bachelor of Arts degree with a psychology or sociology major, or a specialised 2 year diploma in the field of social welfare. Decisions about the relevance of alternative qualifications and/or work experience are made on an individual basis by an AIWCW Membership Assessment Coordinator, with doubtful cases being referred to the National Membership Assessment Panel.

Experience has shown that, due to differences in social work education between countries, the course studied by many overseas trained social workers, who initially seek to join the AASW, do not meet AASW eligibility requirements. In the past, many of these people have met the requirements of the AIWCW. You may initially apply for social work assessment and if unsuccessful, have your application sent on for welfare work assessment without additional cost. However, this process is not usually available for other occupations in this complex field.

AMSA

Australian Maritime Safety Authority

The professions assessed by AMSA are seafarers classified as deck officers (masters and mates) and engineers.

ANC

Australian Nursing Council

Qualifications Immediately Recognised by the Australian Nurse Regulatory Authorities

Registered Nurses who have completed education programs leading to initial registration as a registered nurse in the following countries meet the requirements for registration with the Australian Nurse Regulatory Authorities: United Kingdom, Ireland, South Africa, USA, *Canada, *Hong Kong, *Singapore and nurses from the *Netherlands with HBO qualifications.

*Proof of English language proficiency is required.

Midwives who have completed education programs leading to initial registration as a midwife in the following countries meet the requirements for registration with the Australian Nurse Regulatory Authorities: United Kingdom and Ireland.

Note: Nurse Regulatory Authorities may impose additional requirements. Nurses from the above countries applying for migration must have their qualifications assessed by the ANCI.

Nurses seeking to determine their eligibility to apply for registration as a nurse in Australia may apply for an assessment of their qualifications provided they have:

- completed a pre-registration course of training;
- been registered as a nurse in the country where education was undertaken;
- current registration, a practising certificate or licence in the country where they are currently practising; and
- demonstrated proficiency in the English language.

It is a requirement for nurses to possess and demonstrate the National Nursing competency Standards before they are granted registration. Overseas nurses may be required to complete a Competency Based Assessment Program/Migrant Bridging Program in order to be able to meet this requirement. These courses must be completed either all or in part in Australia. The requirement to complete such a program will be determined at assessment.

Enrolled Nurses

Please Note: There is no nominated occupation with corresponding ASCO Code under the Skilled Occupation List for Enrolled Nurse, Registered Nurse (Division 2), Licensed Practical Nurse or Nurse Assistant. Nurses who have these qualifications are not able to apply for assessment of their skills under General Skilled Migration.

ANZSNM

The Australian and New Zealand Society of Nuclear Medicine

Nuclear Medicine Technologists holding overseas nuclear medicine technology qualifications obtained outside Australia must apply directly to the ANZSNM Accreditation Board for assessment of their qualifications.

Assessment Criteria

Applicants must provide evidence of:

- tertiary qualifications in nuclear medicine technology;
- proof of 2 years post graduate full time work experience; and
- evidence of registration to practice nuclear medicine technology in their home country.

Documentation of course structure and work experience will be required to be eligible to sit ANZSNM examinations.

A skills assessment letter for the purpose of lodgement of an application for skilled migration to Australia is given on successful completion of an English examination and the ANZSNM Nuclear Medicine (2 x 2 hour) multiple choice examinations offered at venues within Australia.

For full accreditation the applicant is required to complete a 12 month period of supervised practice in Australia.

APEC

Australian Pharmacy Examining Council Incorporated

Pharmacy in Australia

Qualifications Immediately Acceptable to Pharmacy Registration Authorities

A pharmacy degree obtained in the UK, Ireland and NZ and a licence to practise in the UK, Ireland and NZ—note: registering authority may impose additional requirements. You must still have your qualifications recognised by APEC before you are able to apply for migration.

Qualifications not Immediately Acceptable to Registration Authorities

If your qualifications do not immediately meet the Australian requirements you will need to undertake the examination process conducted by the Australian Pharmacy Examining Council Inc (APEC).

Eligibility Criteria

The APEC assessment procedure is open to any overseas trained pharmacist who has completed an approved pharmacy course which included a minimum component of the equivalent of three years of full-time academic study and is eligible for registration as a pharmacist in the country in which the qualification was obtained.

Examination Procedure

This consists of an English language requirement (some candidates may be granted an exemption), **Stage I Examination** (a written multiple-choice-question examination covering basic pharmaceutical sciences which is conducted twice a year), **interview and counselling, a period of supervised practice** in an Australian pharmacy; and **Stage II Examination** (conducted in Australia only) — a practical and oral examination covering the practice of pharmacy.

Please note that an application for an assessment of qualifications determines a person's eligibility to undertake the examination procedure. It is not an application to sit the examination. When a person's eligibility is determined, separate examination application forms are forwarded by APEC.

A skills assessment letter for the purposes of migration is given upon successful completion of an eligibility assessment, English language requirement and the Stage 1 examination. The remainder of the process may be completed on arrival in Australia.

AVBC Inc

Australasian Veterinary Boards Council Inc.

To practise as a veterinarian in Australia you must be registered with the registration board of the state or territory in which you practise. If you are an overseas trained veterinarian, there are 3 ways in which you can enter the profession in Australia:

- by immediate recognition of your overseas qualifications;
- by completion of a primary veterinary degree at an Australian veterinary school; or
- by successfully completing the National Veterinary Examination (NVE).

Qualifications immediately acceptable for registration in Australia

Bachelor degrees awarded after 5 years of study by United Kingdom and New Zealand veterinary schools are accepted for immediate registration in all States and Territories. Similar qualifications awarded by some universities in other English speaking countries may, in some instances, be accepted for immediate registration. For information about this you should contact the veterinary registration board in the State or Territory in which you wish to practice.

Qualifications not immediately acceptable for registration in Australia

If your qualifications are not acceptable for immediate registration you can either apply to enrol at an Australian university where you may be granted credit for your overseas studies, and complete the veterinary science course, or you can take the NVE. If you intend to enrol at an Australian university, you must contact the university directly. If you wish to undertake the NVE you have to be formally assessed as meeting the eligibility criteria to sit the examination. You need to:

- hold a degree or diploma awarded after at least 4 years of study at a veterinary school listed in the **'World Veterinary Directory'** or at a school which was part of a college or university listed in the **'World List of Universities'**; and
- be registered, licensed or eligible to be recognised as a veterinarian of good standing in the country in which you studied or worked.

Examination Procedure

The examination procedures consist of the following components:

- **Eligibility Assessment**—assessment of qualifications and associated documents to determine eligibility to undertake the NVE procedures.
- **English Language Requirement**—before proceeding to the NVE Preliminary Examination.
- **Preliminary Examination**—written multiple-choice question (MCQ) examination.
- **Final Examination**—Clinical Examination.

Please note that an application for an assessment of qualifications determines a person's eligibility to undertake the examination procedure. To satisfy the skills component of a migration application a Candidate must successfully complete all stages of the NVE.

CASA

Civil Aviation Safety Authority

The Civil Aviation Safety Authority (CASA) is responsible for safety regulation of civil air operations in Australia and the operation of Australian aircraft overseas. Its functions include:

- standards setting;
- entry control (includes certification and licensing);
- safety surveillance of the industry enforcement of standards;
- regulatory oversight of the national airways system, and air traffic services, aviation rescue and fire fighting services provided by Airservices Australia.

A Professional Aircraft Pilot flies aircraft to transport passengers, mail and freight or provide agricultural, aviation and aerial surveillance services. Licences are issued as either commercial pilot licence (CPL) or air transport pilot licences (ATPL).

There are no formal educational qualifications required for this occupation but applicants must be licensed by CASA.

An overseas pilot licence may be deemed equivalent to an Australian ATPL or CPL if it authorises the holder to fly aircraft as pilot in command in air transport operations or commercial operations respectively.

CPAA

CPA Australia

CPA Australia (CPAA) is one of the 3 professional accounting bodies in Australia and is a designated assessing authority for ASCO occupations Accountant, Corporate Treasurer, External Auditor and Finance Manager.

Assessment for migration purposes is based on the same criteria for admission to Associate (entry-level) membership of CPAA. In general, you can select CPAA, ICAA (The Institute of Chartered Accountants Australia) or NIA (National Institution of Accountants) to provide your assessment.

Note: ACCA (Association of Chartered Certified Accountants) and CIMA (The Chartered Institute of Management Accountants) qualified accountants who do not also have an undergraduate degree are offered several options for meeting the requirements for admission as an Associate membership of CPAA. However, for the purpose of migration applications, these accountants are advised to apply to the ICAA or NIA for a skills assessment.

To meet the educational standard for any of the above ASCO occupations, you must have formal qualifications assessed by CPAA as comparable to an Australian Bachelor degree. These qualifications must include adequate coverage of at least 9 of the 12 core curriculum areas required for Associate membership. Work experience is **not** accepted in lieu of formal qualifications. The core curriculum areas are basic accounting, financial and corporate accounting, current accounting issues (standards and theory), cost and management accounting, business finance, auditing, introductory law (including contracts), economics, statistics, computer information systems, Australian taxation law and Australian company law.

Further information and instructions are provided with the assessment application form, available on request or from the CPAA website. CPAA will issue a written assessment result indicating that your qualifications either meet or do not meet the requirement for your nominated ASCO occupation. If your assessment advises that you meet the requirement, you can submit it with your visa application without completing any further study. Assessments are valid for 5 years and will include details of accredited study programs available by distance learning. Thus, if your assessment is not successful in the first instance, you will be able to complete additional studies required to meet the standard required for migration.

If your visa is granted (and validated) and you wish to apply for membership of CPAA, you must complete the remaining entry level studies prescribed before admission. Members admitted at Associate level must complete the postgraduate level CPA Program and Mentor Program (work experience) before advancing to CPA status.

ICAA

Institute of Chartered Accountants in Australia

The Institute of Chartered Accountants in Australia (ICAA) is one of the 3 professional accounting bodies in Australia and is a designated assessing authority for the ASCO occupations of Accountant, Corporate Treasurer, External Auditor and Finance Manager.

To be considered suitable for any of these occupations for the purpose of migration, you must hold formal qualifications assessed by the ICAA as at least comparable to the level of an Australian Bachelor degree. When it has been established that your qualifications are comparable to an Australian Bachelor degree, the ICAA then examines individual subjects to determine the coverage of required core knowledge areas. Successful applicants are required to have adequate coverage in at least 9 of the 12 core knowledge areas. These areas are: Accounting Systems and Processes; Corporate Accounting and Reporting; Accounting Theory (Professional and Regulatory Processes); Cost and Management Accounting; Corporate Finance; Auditing and Assurance; Introduction to Law and Commercial Law; Australian Company Law; Australian Taxation Law; Information Systems Design and Development; Economics (micro and macro) and Quantitative Methods. It is important to note that practical experience is not accepted as an alternative to formal tertiary study.

Although, in general, you can apply to any of the 3 professional accounting bodies it is recommended that you apply to the ICAA or the NIA for skills assessment, if you are an Associate or a Fellow member of ACCA (Association of Chartered Certified Accountants) (UK) or CIMA (The Chartered Institute of Management Accountants) (UK) but you do not hold an undergraduate degree. Please refer to the ICAA website www.icaa.org.au for further information about professional accounting qualifications recognised by the ICAA.

When the ICAA has completed your skills assessment, it will send you a letter indicating whether your qualifications are suitable or not suitable for the purpose of migration to Australia under General Skilled Migration. If your letter of assessment states that your qualifications are suitable for your nominated occupation, you must include it with your application for General Skilled Migration. Your letter of assessment will also contain further information about how to become a member of the ICAA. If you intend to seek admission to the membership of the ICAA, you will be required to undertake further university studies (at least in Australian Company and Taxation Law). Unless you are a full current member of an accounting body with which the ICAA has reciprocal membership, you will also be completing the ICAA's post-graduate program, the CA Program before becoming a member. A period of approved mentored experience may also be necessary.

If your letter of assessment indicates that your qualifications are not suitable for the purpose of migration to Australia under General Skilled Migration, you should not proceed with a migration application. In this case your letter of assessment will provide information about required further study to bridge your knowledge to meet the current educational criteria for your nominated occupation. Further information about the recognition of overseas accounting

qualifications, assessment process and about how to apply is provided on our website www.icaa.org.au. You can also download an application form for the skills assessment from the ICAA website.

IEAust

Institution of Engineers, Australia

The Institution of Engineers, Australia (IEAust) is the assessing authority in Australia that conducts engineering skills assessments for migration purposes.

There are 3 occupational categories in the engineering profession: professional engineer, engineering technologist and engineering associate. Details regarding these occupational categories and the assessment process are presented on the website www.ieaust.org.au

Intending applicants for assessment should go to the website and read or download the Overseas Qualifications Assessment Kit. The Kit provides comprehensive instructions on what you need to do to have your engineering skills and qualifications assessed. Applicants with further questions on the assessment process may contact the IEAust by telephone, facsimile or email (see Contact details of assessing authorities).

NIA

The National Institute of Accountants

The National Institute of Accountants (NIA) is one of the 3 professional accounting bodies in Australia and is a designated assessing authority for the ASCO occupations of Accountant, Corporate Treasurer, External Auditor and Finance Manager.

To be considered suitable for any of these occupations for the purposes of migration, you must hold formal qualifications assessed by the NIA as at least comparable to the level of an Australian Bachelor degree. Accountants who do not have a Bachelor degree, but who are ACCA (Association of Chartered Certified Accountants) and CIMA (The Chartered Institute of Management Accountants) qualified, are also assessed by NIA for migration purposes. Applicants' qualifications must also include adequate coverage of a minimum of 9 out of the 12 core curriculum areas that are necessary for these occupations in Australia. Regardless of which occupation you nominate, the same core requirements apply. It is important to note that practical experience is not accepted as an alternative to a formal qualification.

The core curriculum areas include: basic accounting, financial and corporate accounting, cost and management accounting, current accounting issues (standards and theory), business finance, auditing, introductory law (including contracts), economics, statistics, computer information systems, Australian taxation law and Australian company law.

In general, you can apply to any one of 3 authorised assessing authorities – ie NIA, ICAA (Institute of Chartered Accountants in Australia) or CPAA (CPA Australia) – for a skills assessment for migration purposes.

Further information and instructions are available on the NIA website www.nia.org.au, from which the application form can also be downloaded. Based on the certified supporting

documentation submitted with your application, NIA will forward a letter of assessment to indicate either your qualifications are suitable or not suitable for migration purposes. A letter of assessment that indicates that your qualifications are suitable for your nominated ASCO occupation must be submitted with your visa application.

If your qualifications are acceptable for migration purposes you can apply to be admitted as a member of NIA. You may still need to undertake further studies after arriving in Australia if you intend to seek admission to membership of the NIA. This may include some additional studies in Australian company law, Australian taxation law and financial accounting.

There are 4 levels of membership in NIA – Associate (ANIA), Member (MNIA), Professional National Accountant (PNA), Fellow (FNIA / FPNA). Applicants with at least an undergraduate degree qualification plus a minimum of 3 years work experience are eligible to be admitted as a PNA.

OCANZ

Optometry Council of Australia and New Zealand

Optometry in Australia

Optometrists carry out eye examinations to measure visual efficiency and detect any visual defects. They may prescribe and dispense suitable visual aids such as spectacles and contact lenses as well as special telescopic and magnifying devices for the visually impaired. Optometrists may also advise patients on eye exercises to improve eye muscles and coordination. They are trained in detection and diagnosis of eye diseases, and can refer patients to ophthalmologists or other health care practitioners.

Optometry Education in Australia

A bachelor degree in optometry is required.

Entry of overseas qualified optometrist into the profession in Australia

The qualifications recognised for registration as an optometrist are specified by legislation in each State and Territory. Australian and New Zealand qualifications are accepted in all jurisdictions. Optometrists who qualified in other countries can sit an examination conducted by the Optometry Council of Australia and New Zealand or the New South Wales Board of Optometrical Registration. A pass in the first examination is accepted for registration purposes in all States and Territories of Australia and New Zealand while a pass in the latter will not be automatically accepted in any of the other Australian States or Territories, or in New Zealand.

Optometrists who received their qualification outside Australia or New Zealand should contact the Optometry Council.

If your qualifications are acceptable for migration purposes, you will still need to apply for registration if you are successful in migrating to Australia. If following migration to Australia, your qualifications are accepted by a registration board, this does not guarantee you employment as an optometrist. That will depend on other factors, such as the number of vacancies or your suitability for a particular job.

TRA

Trades Recognition Australia

The term 'trades' is used in Australia to describe occupations which require technical knowledge and manual skills and where training is usually through an apprenticeship.

In the past, trades skills and knowledge have been recognised in Australia through a trade certificate. Recent changes to Australia's training system are replacing trade certificates with qualifications known as Australian Qualification Framework (AQF) certificates.

The AQF comprises qualifications at levels which reflect the complexity and range of the required skills and knowledge. The qualification for a trade is usually an AQF Certificate III or, in some cases, AQF Certificate IV. These qualification levels also apply to other occupations, and the qualification level by itself does not make an occupation a trade. A trade is defined by the combination of the type of knowledge and skill involved, together with the level of qualification.

AQF Certificates are issued in respect of defined sets of competencies. Competencies, and the combinations of competencies required for a certificate, are specified in Training Packages.

Competencies are detailed specifications of the knowledge and skill required in the workplace in Australia. They provide the benchmarks for assessing skills for migration purposes.

Assessing skills against competencies requires very detailed information from a variety of sources. You will be required to provide extensive and detailed information about your training and/or work experience to the assessing authority. You will need to meet the assessing authority's requirements for the authentication of the information you provide.

The assessing authority will charge you a fee to carry out the assessment.

The assessment of your skills by the assessing authority will be for migration purposes only. The outcome of your assessment will not be a qualification.

It will assist you in your self-assessment against the skill requirement for migration, but it does not mean that your application for migration to Australia will necessarily be approved. It will be considered by the Australian Government, together with other factors, in making a decision on your migration application.

Information about trade skills and application forms for having your trade skills assessed are available by contacting the Trades Recognition Australia (TRA).

Applications and payments for assessment must be made directly to the assessing authority. Any further inquiries about your skills assessment must also be made directly to the assessing authority.

If you are successful in your migration application, it is also important to understand that you will not automatically be provided with a qualification in Australia on the basis of your skills assessment. You may be required to undergo further assessment before a decision can be made on whether to issue you with a qualification in Australia. The assessing authority will provide you with more information on this, including additional fees you will have to pay.
